ELLIS POTTER, Chairman. 7 O'clock.
J. H. Hobart Haws, Secretaries.

The Office of The Tribune is removed to the new and spacious buildings, No. 160 NASSAU STREET, in front of the Park, and nearly opposite the City Hall.

TTHE WHIG ALMANAC AND UNITED STATES REGIS-TER may be obtained in all the principal Cities from the agents of the Tribune and from the Booksellers. Price \$1 per dozen, \$7 per hundred, or for single copies 12} cents.

Tr An Agent for this paper is wanted at Schenectady. One who is acquainted in that City will be preferred.

LT THE WHIG ALMANAC has now been for sale ter days, and we have disposed of over 11,000 copies-all for eash. We received yesterday an order for 600 from the little towa of Grenada, Mississippi, enclosing \$40 of better money than you would suppose could be found there in these days of 'Better (Veto) Currency'-only about 8 per cent dis count on the average. Our friends who have bought their third and fourth copy, to supply the place of those successively borrowed or begged away from them, assure us that this Almanac is just what was wanted. We certainly spent money and labor enough in its getting up, and all but the Pertrait of Henry Clay is to our liking, and on that we employed the best artists and paid them their own prices. It seems impossible to get a good likeness of Henry Clay on wood. *,* Those who meditate pirating from this Almanac are

nformed that we shall defend our copyright rigorously.

We have a letter from our well-informed regular correspondent at Columbus, written on Saturday-only three days before the Election. He is perfectly confident of victory, and only anxious that the weather shall be good, so that the full Whig majority may be manifested in the result. He estimates Corwin's majority at 10,000; we shall be satisfied with 5,000, knowing that the Abolitionists will pull away 3 to 5,000, and some of our friends refuse to vote on account of the Legislative resignation, which they disapprove. It is desirable that the weather should be good, as a great many in Ohio are sick of fevers, &c., at this season, and can only be brought to the Pells in good weather. As the day (Tuesday) and yesterday were both remarkably clear here, we trust that Tuesday was fair in Ohio, and that nearly the whole vote came out. If so, it is all right. A full vote and a Whig victory are nearly the same

* Our correspondent was at Dayton, and is in constant intercourse and correspondence with the Whigs of the whole State. We are a shade loss sanguine than he, simply because he has been most familiar with the Southern and Central portions of the State, where the spirit of 1840 is fully aroused. In the Northern and Eastern Counties, especially among the great Whig Counties of the Reserve the awakening is less decided, the vote will be lighter, and the Whig majority less than in '40.

With regard to the Legislature, the Whige

struggle at great disadvantage, owing to the ras cally Gerrymandering Apportionment of 1836 That Apportionment gave a Legislature Loco-Foco in both branches, in defiance of 6,000 Whig majority, and thus sent Allen to the U. S. Senate. We have not had a Legislature Whig in both branches since, though the State has been Whig by 20,000. Now we feel confident of the House, but cannot have the Senate. We can only count on 16 Whig Senators as probable, but there is a bare chance for two more, which would make a tie. Allen's term expires on the 4th of March next, and we barely hope to see THOMAS EWING elected in his stead.

Our arrangements for receiving early returns from this important Election are ample, and we hope to give enough to decide the result on Saturday morning.

Georgia.

We are of course beaten in Georgia, about as much as last year. No Whig expected-we had almost said, desired-any other result. If we are to have a Delegation in Congress hostile to the Land Distribution, hostile to even Incidental Pro tection, hostile to the single District clause, and voting generally on party divisions against the Whigs, it is quite as well to have them called Loco-Focos as Whigs. In fact, it looks better. True. the recent Congressional Election amounts to nothing, having been held directly in defiance of the law; but it shows where the State is, and that is enough. The Legislature is of a piece with it. In half a dozen strong Whig Counties, Loco-Focos in whole or in part are sent to the Legislature, even when the Whig Congressmen have a majority. We give the vote of a few:

The Albany Argus endorses the Beardsley ticket as 'regular,' and gives the real Loco-Focos the cold shoulder. This is as was expected.

The report that F. O. J. SMITH had been appointed Postmaster at Portland, Maine, proves incorrect, or at least premature.

LF Will the Saratoga Sentinel inform us plainly whether it means any thing-if Yea, what it does mean-by a paragraph in its last into which the name of the Editor of The Tribune is dragged most wantonly! We never use such language with respect to a political opponent without messing something, and never mean what we dare just speak plainly,

MR. CLAY AND ABOLITION .- When Mr. Clay was at Richmond, Indiana, on the 1st inst. he was waited on by a Committee of Abolitionists, headed by Mr. Mendenhall of Randolph County, bearing a long petition for the emancipation of his Slaves. A number of the prominent Loco-Focos of that region had signed it, hoping to embarrass him. Mr. Clay calmly and courteously replied to the request, stating that he deplored the existence of Slavery as a National evil, and would willingly unite in any practicable measure for its eradication. He did not think the course of the Abolitionists calculated to accomplish that end; on the contrary he knew that the feeling in favor of emancipation had been put back fifty years in Kentucky by the Abolition excitement. The People were nearly ripe for gradual emancipation, until the indignation excited by the course of the Abolitionists absorbed every rival feeling.

Mr. Clay, while he declined a compliance with the request thus preferred to him-he thought unkindly and unseasonably-and advised the petiioners to bestow their charity on those around them who were in want while the objects of their sympathy had abundance and were happy-desired to make them a proposition. He said there belonged to him fifty Slaves, valued at \$15,000. If the signers of this petition would raise that sum or give security for its payment, not to him or for his benefit, but for the benefit of the objects of their sympathy, he would then give an answer to their petition. Meantime he would hold it under adrisement.

No answer was given to this proposition.

CASE OF COL. WEBB .- James Watson Webb in licted for leaving the State with intent to re ceive a challenge, appeared in the Court of Sessions yesterday, put in a special plea of Guilty, and addressed the Court most ably in explanation and justification of the conduct for which he stood arraigned. He very forcibly urged in his behalf the facts that no attempt had ever before been made to convict or punish any one under this provision of law, though the offences against it had been many and flagrant; and not less forcibly did he arraign that depraved public sentiment which condemns the man who refuses to fight (rather than be 'kicked off the side-walk,') vet calls for the punishment as a felon of whoever obeys its re quisitions by fighting! Col. W. avows that he entered on the stage of active life as a military man. adopted the code of honor of military life, and has ever adhered to it. He suggests that his conduct n the affair with Marshall was not sanguinary hat he was forced into the fight, entered upon it with a fixed determination not to take his oppo nent's life-a determination proved by a letter written by him the night before the duel to Mr. Hoskin, his associate in the Courier & Enquirer.

The District Attorney gave notice that he should move for judgement against Col. J. W. Webb on Tuesday of next week. The Court then idjourned to Monday.

PHILADELPHIA.-We rejoice to state that the Whigs of Philadelphia city have fully sustained themselves against the combined assaults of Loce-Focoism, Tylerism, and the fierce outcry against alleged Municipal abuses, which drove hundreds of good Whigs into voting against us. John M. Scott is re-elected Mayor over Richard Vaux by 1,003 majority, as follows:

Mayor . Scott, (Whig) 6,145 Mayor . . Scott. (Whig) 5,655 Vaux, (all sorts) 5,137 Badger, (Loco) 4,693 Whig majority......1,408 Whig majority...... 965 It will be seen that the vote is 1.000 higher than last year, and only 1,000 less than in 1840.

The polls were not closed till after midnight, and

then several were in attendance to vote in vain. The Council Ticket of course dragged heavier han the Mayor, and is elected by only 525 majoity. But for the name of Henry Clay, the groundess cry of 'Reform!' would have carried the city against us, though it is perfectly good for 3,000 or "HARRY OF THE WEST" in 1844.

The County of course went against us, as it uniormly has done since 1832.

ONEIDA .- The Anti-Bank Loco-Focos have nominated a clean ticket in opposition to Beards ey and the Oneida Bank party. The two tickets re as follows :

Bank Loco Ticket. Real Loco Ticket. CONGRESS.

John Currie, of Augusta,

We predict that the Bank ticket will drive the other off the track. Real Loco-Focoism never amounts to much in a County so intelligent as

The friends of Home Industry in BROOK-LYS held a large meeting at National Hall last evening, to choose Delegates to the National Convention which meets to-day-E. RAYMOND in the Chair. After an Address by the Editor of The Tribune, a series of able and pertinent Resolutions were reported by JOHN S. NOBLE, from a Committee appointed for that purpose, and adopted. Samuel Oakley, Rollin Sanford, Peter Morton, David Felt and William Forbush were appointed Delegates to the National Convention, which assembles this morning at the Lyceum of Natural His tory, 563 Breadway.

ACCIDENT .- On Tuesday, on the Alum Spring Road, near Lexington, as the mail stage was descending a mountain, the foot board gave way, and the driver, Mr James Gulbraith, was precipituted to the ground, and the wheels passed across his breast. He survived only about two hours .-Mr. G. was in his 21st year.

MURDER-Most Horrisle Affrik.-Auron Whitney, of St. Clair county, Mo., was lately ound dead in his bed. His reputed wife, Sarah Whitney, swore before the coroner, that he committed suicide, and the verdict of the jury was the same. Since the inquest, however, suspicion has been entertained against the wife and a reward of \$150 in the Arkansas paper has been offered for her delivery to the Sheriff of Lawrence county, Arkansas. She escaped from the officers. A few days ago we heard it stated that this same woman had passed through this city, on her way East or [Cincinnati Sun.

We have a report that Benj. Champneys, the Loco candidate, is elected to the Senate from York and Lancaster. This is very probable, though the District is strongly Whig, as Champneys is very popular and his opponent otherwise.

We do not credit implicitly the statement of our correspondent that a part of the Whig ticket for City and County officers is elected in Philadelphia. If correct, it is better than had been expected. The vote will be close.

The fighting last night at Carel's hotel, in the vicinity of the polls, was but of few moments' duration and owed all its brutality to rum. To the e'ernal disgrace of all parties, upon all occasions, the foul spirit of Intemperance is per-mitted to scatter its peraicious influence. It is to be hoped the time is not far distant when a bar will be put to the vend-ing of liquer upon such occasions. As it is there was far less annoyance from intemperance at this political canvass than was ever hefore known in Philadelphia. vas ever before known in Philadelphia.

We are smothered in dust, and the country round about s as dry as a powder horn—the principal inconvenience rom which is the difficulty that the farmers experience in getting in their grain.

The preparations making for your magnificent Water Works Celebration excites much interest here and will induce crowds of our citizens to visit your City.

FROM THE COAST OF AFRICA .- By the brig Kentucky, Captain Jepson, we have later intellience from Africa and the Cape de Verde Islands. The Kentucky is directly from the Portuguese village up the Bissaos River. Nothing of particular importance has occurred in that vicinity.-The Kentucky was spoken at the Bissaos entrance by the British Brig of War Curlew, and was permitted to pass on up the river without being boarded Captain Jepson took his brig up the river safe without a pilot-never known to have been done before. The bark Gentleman from New-York was anchored off the Portuguese village, just arrived from Gambia and reported that the Europeans and disease that had recently made its appearance there. The factories on the Island of Gallena, which were destroyed by the British some time szo, had been rebuilt by the well-known Blanco, and are doing as extensive a business as formerly. No molestation from the British has occurred ately. All is unusually quiet at the Cape de Verds. At the Port of Barisco there was one British and two Portuguese vessels of war, and a great number of the crews were sick.

HORRIBLE .- John Dias, of Pike county, Mississippi, has been lodged in the jail at Holmes ville, on a charge of committing an infernal outrage on his step-daughter, aged 18.
